

From the Superintendent:

Beginning the week of April 19th, Wednesdays will no longer be dedicated to specials classes; instead, there will be remote live academic instruction. Student schedules for Wednesdays will be the same as for the rest of the week, but will be remote for everyone. Specials assignments will still be posted and can be completed in the afternoon.

Notes from the Nurse's Office:

A reminder from the Nurse's Office for all students and staff, especially those returning to the building for the first time next week. Welcome Back!

Remember that everyone should continue to monitor their health, and review the Daily Health Check-In each day before coming into the school building. For parents and staff, the Daily Health Check-In Form is available in PowerSchool under 'Other Forms'. The Daily Health Check-In questions are also available on the Nurse's Office Webpage – [CLICK HERE](#).

Please review all the questions each morning before school. They address the three main reasons to stay home:

- 1) Symptoms of illness
- 2) Exposure to someone who is ill
- 3) Travel

Detailed information on those reasons is also available on the Nurse's Office Webpage – [click here](#). **If you answer any question with 'yes', please contact the Nurse's Office for further discussion and instructions.**
