EASTAMPTON HEALTH SERVICES
Second Notification

May 28, 2014

Dear Parent/Guardian:

This is a follow up letter as a Second Reminder that all entering sixth grade students have an added immunization requirement. As of September 1, 2008, the New Jersey Department of Health revised the immunization requirements for students entering sixth grade.

All children who were born on or after January 1, 1997, are now required to provide documentation of *Tdap*(tetanus, diphtheria, pertussis) and *meningitis vaccines*. *The Tdap vaccine must have been administered within the last 5 years.*

Please review your immunization records and send the updated information immediately to the nurse's office. If your child has not received the **Tdap** and **meningitis** vaccines, please contact your physician now to comply with this regulation.

Please attend to this matter no later than **September 1, 2014**. There will be a nurse available over the summer to accept forms. **If this requirement is not met, the student will be kept out of school until the immunizations are completed.** Thank you for your cooperation.

Please feel free to contact the nurse's office with any questions at 267-9172 Ext. 122 or 315. Thank for your attention to this important matter.

Sincerely,

Patrice Snowden
